

## EQIPP: Immunizations (Track: Adolescent Platform – 2017 Updates)

**Directions:** Use this tool for the next 20 charts (10 charts for 13 year olds; 10 charts for 17 year olds) of patients seen in your office; exclude immunocompromised patients.

The ages of 13 – 17 year olds were chosen to align with National Immunization Survey (NIS) data for **benchmarking**. This is to help identify areas in practice that could be improved and lead to fewer missed **opportunities**.

**NOTE:** EQIPP does not record any patient identifying information. You may enter it here for your own record-keeping purposes. Critically examine your office's immunization practices and make changes to improve your immunization rates.

### Patient Demographics

1. Age: ☐ 13 years ☐ 17 years
2. Gender: ☐ Male ☐ Female
3. Does an easily accessible immunization record exist in the patient's medical record?  
☐ Yes ☐ No
4. **For 13 year olds (only):** Has the patient received the Tdap vaccine (1 dose)?  
☐ Yes ☐ No ☐ Unable, due to parent refusal  
☐ Unable, due to vaccine shortage, or acceptable medical contraindications
5. Has this patient received the following Meningococcal (MenACWY) doses?  
 5a. 1<sup>st</sup> dose Meningococcal (MenACWY)  
☐ Yes ☐ No ☐ Unable, due to parent refusal  
☐ Unable, due to vaccine shortage, or acceptable medical contraindications  
 5b. **For 17 year olds (only):** 2<sup>nd</sup> dose Meningococcal (MenACWY)  
☐ Yes ☐ No ☐ Unable, due to parent refusal  
☐ Unable, due to vaccine shortage, or acceptable medical contraindications  
☐ Not applicable, 1<sup>st</sup> dose administered at age 16 or older

### HPV Vaccination Series

- 6a. Has this patient received the 1<sup>st</sup> dose of the HPV vaccination series?  
☐ Yes ☐ No ☐ Unable, due to parent refusal  
☐ Unable, due to vaccine shortage, or acceptable medical contraindications  
*\* Note: if "No" or "Unable" options are selected, skip to Question #8*
- 6a1. **If yes to 6a.,** When was the patient's 1<sup>st</sup> dose of HPV vaccine administered?  
☐ Before age 15 ☐ Age 15 years or older
- 6b. **If yes to 6a,** has this patient received the 2<sup>nd</sup> dose of the HPV vaccination series?  
☐ Yes ☐ No ☐ Unable, due to parent refusal  
☐ Unable, due to vaccine shortage, or acceptable medical contraindications ☐ Unable, dose not due

Administered to Before age 15	Administered at age 15 or older
6c. <b>If yes to 6b AND 1<sup>st</sup> dose administered before age 15,</b> was the recommended immunization schedule (2 doses of HPV vaccine at 0, 6-12 months) followed? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not applicable, 3 dose series completed prior to February 2017	6d. <b>If yes to 6b AND 1<sup>st</sup> dose administered at age 15 years or older,</b> has this patient received the 3 <sup>rd</sup> dose of the <u>HPV vaccination series</u> ? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unable, due to parent refusal <input type="checkbox"/> Unable, due to vaccine shortage, or acceptable medical contraindications <input type="checkbox"/> Unable, dose not due
	6e. <b>If yes to 6d, AND 1<sup>st</sup> dose administered at age 15 years or older,</b> was the recommended immunization scheduled (3 doses of HPV vaccine at 0, 1-2, 6 months) followed? <input type="checkbox"/> Yes <input type="checkbox"/> No

8. Has the patient received the Influenza Vaccine in the past 12 months?  
☐ Yes ☐ No ☐ Unable, due to parent refusal  
☐ Unable, due to vaccine shortage, or acceptable medical contraindications
